

## **Loyalist Township - County Rd #6 Water Service Change Over 1046 to 1056 County Rd #6**

Dear Resident:

Our company has been awarded a contract by Loyalist Township to change residential water services from an older watermain to a new existing watermain along County Rd #6. The work will involve the removal of some portions of asphalt driveways, landscape areas to access your water service. After the change over of the water service, new asphalt paving and landscape restoration will occur. Your house is to be included in the project and access to the property will be required to perform the work.

No access to the interior of the house will be required. Work will be carried out between 7 am and 5:30 pm, Monday to Friday only.

Work has been tentatively been scheduled to be done between April 21 and May 14, 2021. During this work you may be required to park your vehicle(s) on the street and/or use an alternate route to your entrance to avoid the work during regular working hours. There will be no interruption of electrical, sewer, phone or cable. There will be a water service shutdown to allow changing of your water service. We will provide notice for this shutdown.

Please note heavy equipment including excavators, skid steer loaders, dump trucks and asphalt paving equipment will be used to complete this work.

If you have any questions please contact us at 613-354-9768.

Sincerely,

Murray Aitken
