FITNESS CLASSES

Loyalist Township offers a wide variety of daily fitness classes for all fitness levels! Whether you're new to fitness or looking to enhance your training routine, we have a class for you!

We have membership options available, along with drop-in rates, so you can choose what works best for you. You can find our complete Fitness Schedule by [clicking here](#) - and your first class is free to try!

Core Fitness

Your core is more than your abs, and our bodies rely on a strong core to protect our backs, hips and knees, as well giving us balance, dynamic mobility and power. This class will use progressive standing, sitting and mat exercises to engage our core muscles in a variety of movements that will help participants build a solid foundation for any kind of physical activity.

Gentle Stretch

This class uses a chair for support in both standing and seated stretches. It is a great place to be if you are just starting back into fitness, looking to improve balance, wanting to increase mobility and flexibility, or if you just want to start the day off with a good old-fashioned stretch!

Fitness Circuit

This circuit training class combines strength and cardio training for a full body workout using a variety of equipment. Work at your own pace or push yourself to a new level!

Yoga & Mat Pilates

This class combines elements of yoga, Pilates, and traditional stretches for a full body release. We will use equipment like foam rollers and trigger point balls for an enhanced stretching experience.

Strong Seniors

You're only as strong as you feel! This program is designed for seniors of all abilities and fitness levels. Our instructor will focus on exercises appropriate for maintaining bone mass, improving muscular and joint strength, endurance, and will wrap up with full body stretches.

Tone & Sculpt

What is the best way to tone your muscles? Cardio intervals and weight training! Our instructor uses a variety of equipment and exercises to challenge your entire body. Class wraps up with full body stretches.

Yoga

Students will gain an understanding of postures, breath work and energy flow. Classes focus on moving safely between each position while improving your ability to flex, bend, balance and gain strength.

Zumba

Everybody and every body! Each Zumba® class is designed to bring people together to sweat it on. We take the "work" out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin and World rhythms take over, you'll see why Zumba® Fitness classes are often called exercise in disguise. Super effective? Check. Super fun? Check and check.

PRESCHOOL LEVELS

PRESCHOOL SWIMMING LESSONS (3 YEARS TO 5 YEARS)

Give your child a head-start on learning to swim. The Lifesaving Society Preschool Program develops an appreciation and healthy respect for the water before these kids get in too deep.

In our basic aquatic progressions, we work to ensure 3- to 5-year-olds become comfortable in the water and have fun acquiring and developing a foundation of water skills. We incorporate Lifesaving Society Water Smart® education in all Preschool levels.

Preschool 1

We encourage the parent to participate until their child lets them know they can do it themselves (thank you very much). These preschoolers will have fun learning to get in and out of the water. We'll help them jump into chest deep water. They'll float and glide on their front and back and learn to get their faces wet and blow bubbles underwater.

SWIMMER LEVELS 1-6

CHILDREN'S SWIMMING LESSONS (5 YEARS+)

The Lifesaving Society's 6-level Swimmer program makes sure your children learn how to swim before they get in too deep.

Swimmer progressions accommodate children 5 years and older including absolute beginners as well as swimmers who want to build on the basics.

We stress lots of in-water practice to develop solid swimming strokes and skills.

We incorporate Lifesaving Society Water Smart® education in all Swimmer levels.

ADULT LEVELS 1,2,3

ADULT SWIMMER 1-3

The Adult Swimmer program is for beginners who may be just starting out or swimmers who just want to help with their strokes. Within the Adult Swimmer curriculum, participants set their own goals to develop water confidence and smooth recognizable strokes.

ADULT

1,2,3,

1/2/3

Adult 1

Adult 1 is the entry point for adult swimmers, building basic water comfort and safety. Participants practice foot first entries and exits, treading water for 30 seconds while wearing a PFD, the fundamental underwater skills like breath-holding, Underwater exhalation, opening eyes underwater. They're introduced into floating and gliding on front and back, basic flutter and whip kick, and short distances for frontcrawl and backcrawl (10 - 15 m), plus Swim To Survive sequence and Water Smart safety messaging. It's geared towards swimmers with a little to no prior experience.

Day	Dates	Time	Classes
Monday's	Oct 19 - Dec 14	6:15 pm to 7:00 pm	9

Resident Fees: 9 classes - \$106.65

Non-Resident Fees: 9 classes - \$127.89

Adult 2

Adult 2 builds on that foundation with more independence in the water. Entries progressed to standing dives and forward rolls into deep water, and surface support exceeds to treading water for 1-2 minutes without the use of a PFD. Underwater skills include handstands and front somersaults, while movement skills introduce whip kick, breaststroke arms drill, and longer frontcrawl and backcrawl minimum distances (25-50m). Swimmers complete the full Canadian Swim to Survive standard (role entry into deep water, 1 minute of treading water, 50 m swim unassisted). A solid step up in stamina and technique refinement.

Day	Dates	Time	Classes
Tuesday's	Oct 13 - Dec 8	6:00 pm to 7:00 pm	9

Resident Fees: 9 classes - \$106.65

Non-Resident Fees: 9 classes - \$127.89

Adult 3

Adult three is the most advanced adult swimming level, geared towards stroke refinement and fitness. Entries become more dynamic (shallow dives compact jumps), and underwater skills include back somersaults and swimming underwater (5-10 m) to recover an underwater object. The focus shifts towards heavily on stroke mechanics, frontcrawl, backcrawl, breaststroke, eggbeater and scissor kick, much longer distances (50 -100 m). Fitness components include interval training, sprints, and a structured 300 m workout, reflecting a swimmer who's built towards continuous technical sound swimming.
